Senior Expert

## Marketing authorisation and registration

Diapharm is the market leader when it comes to the development and marketing authorisation of herbal medicinal products. The company is specialised in well-established use products with normal marketing authorisation and simplified traditional herbal registrations. More than 500 herbal medicinal products in Europe are based on dossiers prepared by Diapharm. Marketing authorisation holders value our expertise and our many years of experience with traditional products and new developments.

### Our range of services includes:

- Project planning and coordination
- Consultancy and strategy
- Licenses, dossiers and registrations
- Development of new OTC products, also exclusively
- Marketing authorisation research, evidence of traditional use, preparation and maintenance of eCTD dossiers
- Support in registration processes throughout the EU
- Analytics
- Pharmacovigilance

A large number of complete, pre-prepared documents are available today, both for traditional herbal medicinal product registration (in accordance with Directive 2004/24/EU) and for marketing authorisation (in accordance with Directive 2001/83/EU) in numerous European countries.
